

## *Vision Of The End Of America*

In 1979 a lady named Sarah Hoffman committed suicide, but was told in the spirit realm that she had to go back and finish her earthly life. She didn't want to because her life had been terrible and she had experienced the wonder and beauty of Paradise.

"This panoramic view of the earth came into view and then came closer and closer like I had been out into space and was flying towards it.

I knew that this was to help me make my decision to go back to earth, to my terrible life, because part of me wanted to go back to the beautiful spirit world or paradise and part of me felt the need to go back into my body and change my life. It was kind of a tug of war and what I was going to see was to help me understand what I would go through if I went back into my clay body.

It played out again just like a video tape in fast forward motion and yet again I could assimilate and see everything clearly and perfectly. As the world zoomed up to me I saw the whole world and then the various countries.

I don't know the countries of the world very well, but as I looked at these lands I instinctively knew what countries they were. I was looking at the Middle East and watched as a missile flew from Libya and hit Israel with a big mushroom cloud. I knew that the missile was actually from Iran but people from Iran had been hiding it in Libya and fired it. I knew that it was a nuclear bomb. Almost immediately missiles started flying from one country to another, quickly spreading to all over the world. I also saw that many nuclear explosions did not come from missiles but from ground bombs of some kind. I knew that in the future there would be a nuclear war throughout the world and this is how it would start.

Then, my focus changed from the Middle East to America. I understood that I was about to see some of the things that would lead up to the nuclear holocaust I had just witnessed.

*What Sarah shares seems to be a vision of events or significant judgments to come all the way to Jesus' return or even beyond. It's now 2012, 33 years since her experience. So, some events seem to have already taken place. There's no time spacing or dating of events, only the graphic events themselves. My own response in reading all that she shared was, "No!!! Lord, don't allow these things to happen!" Upon which He again reminded me that He can change things at any time, that it took repentance and a turn-a-round with the people to prevent judgments from coming. Therefore, that's why He is sending me and many others to make a difference and to make every effort to get people to change and to prevent these terrible and awful, dreadful judgments from taking place.*

## This is a listing of what Sarah shared with some comments:

1. Buildings falling in New York, dust smoke debris, lady running for her life with her child.  
9/11/2001 Twin Towers collapse.
  
2. Soon after the above disaster no commerce, no shopping  
Economic Collapse beginning, banks, business, real estate failure, collapse...
  
3. Next came two diseases, (1) white dime-sized blisters that became worse and caused death in locations New York Los Angeles, San Francisco, Salt Lake City; (2) flu-like virus that became deadly with bleeding from mouth ears, nose, eyes, etc., people died more rapidly from this disease than the first one. Thousands of people died from these two diseases, America and in Israel, also. Biological warfare being affected upon USA.
  
4. People began to flee from the cities  
Complete social breakdown and loss of basic services, power, water, food.  
Anarchy, brutally violent groups and gangs preying upon people.  
Cars piled up, roads blocked, people fleeing on foot with just what they can carry.
  
5. Massive power blackouts  
That's enough to be disastrous in itself. Massive darkness! Whereas our cities have been lit up twenty four hours a day for years.
  
6. Large numbers of people, refugees, fleeing to the countryside, rural areas, mostly on foot  
Large numbers of people displaced with no where to go. Survival instincts take over, no order or thought for life. For years now, there have been many survivalist groups and people who prepare or 'preppers'.
  
7. 'Brutal Gangs' ravaging about capturing, raping, brutalizing, butchering families.  
Probably some of the 'zombie' type stuff we are hearing about today and seeing in movies and TV shows? Pictured like demonized beasts instead of human beings.
  
8. All Communications down?? Very limited communication since there is no electricity.  
Today there is supposedly the threat of an EMP or Electro Magnetic Pulse that would disrupt and destroy all electronic devices and equipment.

9. A tremendously long winter that lasted into summer, catching people by surprise.  
Evil men are messing with the natural seasons and weather conditions of the planet.  
Unpreparedness, especially mental unpreparedness has a big impact upon people as these things happen. People are not prepared for what will happen. The majority won't know what to expect or what to do.

10. With the long winter a full-blown famine will begin.  
Much has already happened and is even now happening that affects our farms and crops and food supplies(livestock, chickens and such). This 'long winter' represents a huge change in climate and food supplies.

11. The 'two diseases' become worse during the long winter killing many more people.  
One event compounds with other events causing a much greater overall disaster.

12. Complete loss of government and gross anarchy results from the 'long winter' also  
Social breakdown continues...

13. The 'long winter' causes panic and people begin to eat worms and anything they can dig up or find as food supplies are depleted.

14. Water supplies are poisoned.  
No available drinking water, but some are so thirsty they drink it anyway knowing that they will die(possibly some will want to die).

15. Gang brutality and violence increasing.  
Like 'packs' of dogs or wolves, total abandonment of humane instincts.  
Killing is the only thing that matters, brutally murdering as many people as possible.

16. Family ties, relationships reach the breaking point, become meaningless.  
Turning on each other, killing each other, eating each other.

17. Cities burn out of control, the air is filled with smoke and the odors from the burning.  
This speaks to 'total chaos'. Way past the point of any hope of recovery or return. It's over!  
Kind of thing.

18. Some 'pockets of light' !!!

This is important! This is what Jesus has me and many others preparing for.

Arks, places of refuge for what is coming.

They are described as places where some had banded together to pray and to defend each other and to take care of each other. They had guns and the gangs left them alone, but they didn't want to mess with them anyway. (Power and presence of God there). These 'pockets' were formed before the disease breakouts. "It was like they knew what was coming and had prepared for it."

Hundreds and even thousands of people were able to escape to these places.

19. Missile attacks! Russian nukes hitting New York, Las Vegas and others.

20. Some cities destroyed by nukes exploded on the ground.

Had been hidden and were placed for detonation later. Mushroom clouds as these go off.

Cities like Los Angeles, Salt Lake City

21. At about the same time as the Nuclear attacks - hot fireballs raining from the sky about the size of golf balls. Streaked across the sky with smoke trails igniting anything they struck including humans!

22. Russian troops invade east coast, parachute into Salt Lake, Utah.

23. Chinese invade the west coast at Los Angeles

Ordinary people fight against these - there is no military as we have known it.

24. The winter after the 'long winter' earthquakes begin in Idaho and Wyoming and spread quickly.

25. Huge earthquakes strike Utah, California

Several more after this - Los Angeles - San Francisco

26. The earthquakes trigger volcanoes in the west - smoke and ash raining down everywhere.

In a separate vision by A. C. Valdez lava from these drive out invading troops.

Sarah says of the Russians and Chinese - that 'they lose', though she doesn't understand...

27. A massive wave of water(tsunami) nearly sweeping Los Angeles away.

Many coastal cities being destroyed similarly.

28. Earthquakes forcing massive amounts of subterranean water(almost like a tsunami) to the surface destroying large areas - like Salt Lake City

29. Another disease appearing  
red blotches - Killed people as they stood on their feet!  
They disintegrated into a bloody mass(maybe a form of the 'flesh-eating' disease we heard of recently - summer, fall 2012 )  
This significantly causes the increase of 'bodies' everywhere unable to be buried.  
Bodies begun to be piled up and burned if not already.

30. Huge earthquake in the middle of the US that splits it in half.  
The Madrid fault, kind of along the Mississippi River  
What we have been hearing of for some time and are even seeing the beginning of this with the sinkhole in Louisiana.

31. One huge world-wide earthquake that results in earthquakes all over the world!  
Remember the one mentioned in Revelation, this may be what it is referring to.  
Also prophecies about every mountain and island being moved out of their places!

32. Tremendous Wind!  
Stronger, more forceful than any ever experienced before!  
The huge world-wide earthquake and this tremendous 'wind' were caused by a 'near miss' by a passing planet(Niburu, Planet X) coming so close as to disrupt everything.

33. Now, Sarah was taken back out into space and was viewing the earth from a distance...  
She saw a huge fireball bright red and gold, two or three times the size of the earth approach and engulf the earth. This was different than anything else she saw, she realized it was the 'burning' of the earth described in scripture.

She saw Jesus come and 'catch away' the good people before the earth burned in the fireball.  
The only ones left there were the few wicked that had survived.

I believe in Sarah being taken back into space represents a 'span of time', possibly the thousand year kingdom of Christ
